

DATA • STRATEGY • BUSINESS IMPACT

Lucy *Kamlewechi*

MS Candidate · Carnegie Mellon University · Heinz College

I translate ambiguous, large-scale data into strategic business recommendations that drive executive decision-making. From identifying 40+ partnership opportunities to uncovering critical disparities across 3,000+ U.S. counties, I pair analytical rigor with clear, stakeholder-focused communication. My focus: solving complex business problems through technology, data, and cross-functional collaboration.
